## Staff Spotlight

### Get to Know Your Fellow A&P Colleagues - Amy Li

March's APC Spotlight shines on Amy Li, who serves

## Program Spotlight

### FSCJ Author Series Welcomes Josh Hanagarne

On March 13, FSCJ hosted the annual Author Series Learning Community event featuring Josh Hanagarne, author of "The World's Strongest Librarian: A Book Lover's Adventures."

At first glance, Josh Hanagarne seems an improbable librarian. He stands 6'7", competes in strongman contests

and was diagnosed in high school with Tourette Syndrome. Yet, everything in Hanagarne's life – from his Mormon upbringing to finally finding love to learning to control his tics through lifting – circles back to a close connection to books. Hanagarne's novel illuminates the mysteries of Tourette Syndrome as well as the very different worlds of strongman training and modern libraries.

Hanagarne's presentations at Kent and South Campuses explored his experiences growing up with Tourette Syndrome and how strongman training helped him to gain some control of his tics. He also spoke about perseverance and how for him it evolves every day. He left audiences with this inspiring outlook: Things can always improve and be better than they are right now.

As part of this year's Author Series, students were invited to participate in essay and visual art contests. Essay contest winners are students Leity Dorta (first place), Robin Hill (second place) and Towela Banda (third place). Visual Art contest winners are the collaborative project created by the Advanced Advertising Design, Sculpture, Design and Printmaking classes (first place), and students Lance Hunt (second place) and Angela Orth (third place). Congratulations to all!

## FSCJ's B.S. in Human Services Receives National Ranking

Congratulations to our Bachelor of Science in Human Services. College Choice ranked the degree number one in the nation for most affordable online human services degrees.

This ranking was determined by comparing the net cost of each program in the nation with graduation rates, retention rates and

the early salaries of graduates. [View the full list.](#)

## EMS Students Take Part in Stop the Bleed Training

Recently, students from FSCJ's Emergency Medical Services (EMS) program took an active role in Stop the Bleed (STB), a nationwide campaign intended to encourage bystanders to become trained, equipped and empowered to help in an emergency before professional help arrives.

According to Tom McCrone, EMS program director, this year's class has been certified as STB Instructors by the American College of Surgeons and are conducting classes at North Campus. To date, they have helped train more than 100 individuals including medical assisting students, security officers and members of the Jacksonville Sheriff's Office. FSCJ Security Chief Tom Mitchell, Adjunct Professor Murray Kramer, EMTP/RN and Professor Steven Sheffer, EMTP/RN are assisting students in this project.

Civilians need basic training in bleeding control principles so they are able to provide immediate, frontline aid until first responders take over care of an injured person. Without civilian intervention in these circumstances, preventable deaths will occur.

Originally motivated by the 2012 tragedy in Sandy Hook and other tragedies that have occurred in recent years, the significance of this training is critical.

"Our goal is to train other health care students on campus and conduct train-the-trainer sessions, so we can reach as many faculty and students as possible over the next year," McCrone said.
